

A word cloud visualization centered around the word "chromatin". The word "chromatin" is the largest and most prominent, rendered in a light gray color. Surrounding it are several other words in black, of varying sizes. To the left of "chromatin" is the word "black" in a large, bold font. Above "black" is "chip-seq". Above the "c" of "chromatin" is "color". Above the "h" of "chromatin" is "drosophila". Above the "r" of "chromatin" is "gene". Above the "o" of "chromatin" is "genome". Above the "m" of "chromatin" is "hl-hesc". Above the "a" of "chromatin" is "profiles". To the right of "chromatin" is the word "states".
